

ENROLL US!

We Want to Be a Partner in EPA's
National Partnership for Environmental Priorities

GENERAL INFORMATION

Name of Organization: Madison Industries Facility Name: Madison Industries
Principal Contact: Kevin Hildreth Title: Facility Manager
Facility Location: _____ City/State/Zip: _____
Mailing Address: P.O. Box 175 City/State/Zip: Old Bridge, NJ 08857
Phone: (732) 727-2225, ext. 320 Fax: (732) 727-3531
Email: khildreth@oldbridgechem.com EPA RCRA ID Number: NJD002460855

PARTNER AGREEMENT

Our organization is choosing to become a partner in EPA's National Partnership for Environmental Priorities. Our goal is to reduce the quantity of one or more Priority Chemicals currently found in our products, processes, or releases using techniques such as source reduction, recycling, or other materials management practices. In this enrollment application, we identify one or more voluntary goals that we believe we can achieve as partners in this program. The voluntary goal(s) provided below is an initial estimate and may change over time. We may revise our goal(s) or withdraw from the program at any time. If/when we choose to revise our goals or withdraw from the program, we will notify EPA.

GOAL #1. Chemical Name: Lead **CASRN:** 7439-92-1
Narrative description of proposed project and the method we will use to measure success: _____

Our primary method for reducing lead disposal will be through raw material substitution. In the past, we have used leaded brass as a feed stock in our recycling process. We have changed our feed stock, substantially reduced leaded brass and consequently reduced lead, a by-product, from disposal. We accomplished a secondary lead reduction by more closely monitoring our smelting processes and fine tuning these processes to reduce lead in our waste.

1. Our voluntary source reduction goal for Chemical #1 is to reduce the amount of this chemical generated from a baseline amount of 353,800 pounds generated in January, 2001 (month/year) to a reduced amount of 150,000 pounds generated by December, 2004 (month/year).

2. To accomplish this goal, we will explore the following source reduction options (check all that apply):
☒ Equipment or technology modifications. ☒ Process or procedure modifications.
☒ Reformulation or redesign of products. ☐ Substitution of less toxic raw materials.
☐ Improvements in inventory control. ☐ Improvements in maintenance/housekeeping practices.
☐ Other (explain): _____

3. Our (optional) voluntary recycling or recovery goal for Chemical #1 is to increase the amount of this chemical recycled or recovered from a baseline amount of _____ pounds in _____ (month/year) to an increased quantity of _____ pounds by _____ (month/year).

4. To accomplish this recycling or recovery goal, we will explore the following options (check all that apply).
☐ Direct use/reuse in a process to make a product.
☐ Processing the waste to recover or regenerate a usable product.
☐ Using/reusing waste as a substitute for a commercial product.
☐ Other (explain): _____

Authorizing Official/Title: Kevin Hildreth/Facility Manager Date: 9/14/04
Project Contact (if different from Authorizing Official): _____ Phone: _____
NOTE: use supplemental sheets for additional goals.
